## Optional Pin Step-down Kit

BH53KIT is a optional kit that takes up the slack when using a smaller 2" drawpin, increasing control and eliminating impact-wear. The patented Step-down plate is adjustable with no tools to allow for side-mounting when not in use.

## Mounting

Use (3) 1" diameter Grade 8 fasteners. (Not included)

Ensure there is no side-play between hitch and bracket when mounting. If so, use shims or washers to take up the slack before using Gr.8 bolts to mount it tight. This is to help from shearing off the bolts when under extreme side loads.
